STRATEGY+SOURCING

Strategy+Sourcing is a turnkey consultancy service providing project management for offshore projects in renewable energy.

Project Consulting

Development and realization of offshore renewables projects - from early concept development: planning, coordination and implementation of project fundamentals, scopes of work and related interfaces within contractual set-up.

Tender Support & Management

Preparation of tender documents and the implementation of the tender phase; optimized and highly competitive tender phase, to achieve cost and time savings together with highest quality in offerings received.

Contract Negotiation

Based on GRS expertise from over 1,500 contracts successfully closed in offshore projects, you benefit from bespoke support during the full contracting phase and negotiations.

CHARTERING

Benefit from our international network and an internal database containing more than 100,000 offshore vessels and offshore equipment.

Confidential and discreet

Secrecy guarantees the best price: enquiries on behalf of the clients, are published without names and project details. As experts for offshore vessels, GRS guides you through the market and brings the deal to a successful close.

Your trusted Partner

A truly independent partner who works diligently to ensure you get the best possible vessel for the most attractive price.

Saving You Money and Time

Supporting your charter project with expertise and competence: from the identification of requirements, negotiation and completion of the contract, for the entire chartering period. This service is free of charge for you.

SALE+PURCHASE

Trust in our independence to find the best deal and reliability to ensure that the project runs smoothly.

Discreet and experienced Partners

Selecting potential offshore vessels, gathering offers from the sellers. Remaining the buyer's name anonymous, for protecting the client's reputation in the market. Providing a competitive environment and more favorable pricing.

Identification of Requirements

Definition of requirements, guidance on any technical questions, and surveying the offshore vessel market. Providing price guidance and availability of vessels without disclosing your inquiry to the market.

Contract Negotiation

Identifying the preferred vessel(s) and completing a vessel inspection. Drawing up a contract based on the terms and conditions of the best offer. Support through the contract notifications.
