Press Release

GRS.Offshore Renewables GmbH announces the launch of its Office in Oslo (Norway)

Expansion strengthens GRS Group's global offshore + renewables presence

Hamburg / Norway – 16th of September 2025

GRS.Offshore Renewables GmbH is proud to announce the official inception of its Norwegian subsidiary in Oslo. This strategic expansion marks a significant milestone in the Group's commitment to supporting both the offshore + renewables and broader maritime sectors.

GRS in Norway will be led by Dag Rabben, who brings nearly 30 years of senior experience with, amongst others, Heerema Group, Aker Solutions, and AquaShip. He has an extensive global track record in competitive shipbroking, EPC project management, and offshore business development.

Dag Rabben commented: "I have long admired GRS as the leading shipbroking house in offshore + renewables and associated markets. To me, the GRS brand reflects competence, innovation, and integrity, and I am proud to join such a strong and capable team."

Philippe Schönefeld, Managing Partner of GRS, commented: "The creation of our Norwegian office is more than an expansion - it signals our deep commitment to clients in all aspects of offshore maritime operations. Ulrik Kriete, Managing Director of GRS, added: With Dag's expertise and leadership, GRS is well-positioned to further strengthen its international footprint."

About GRS.Offshore Renewables GmbH

Founded in 2011 in Hamburg, GRS.Offshore Renewables GmbH is a trusted partner for offshore + renewables and maritime projects worldwide. The company provides independent consulting and shipbroking services across project development, installation, operations, and maintenance, offering tailored solutions that connect developers, vessel owners, and service providers to advance the global energy transition.
